Subject: RE: MCNEP/CalGEM/EPA Oct 28 meeting

Thank you, Calvin. Received.
Will revert on the other items soon.

Have a nice weekend.
-Rebecca

Subject: MCNEP/CalGEM/EPA Oct 28 meeting

Hi All,

Thanks for setting up today's meeting to discuss pending issues related to subsidence and stimulation at the Mendota Carbon Negative Energy Project.

We understand that MCNEP will work with CalGEM to acquire specific records/reports on wells that were affected by subsidence in the project area.

Per our discussion, a detailed step-by-step stimulation plan is not necessarily needed at this point. For MCNEP's consideration, please find attached sample stimulation program language that could be included with the permit application. Please let us know if you have any further questions.

Lastly, please provide a status update on the financial assurance plan.

Best Regards,
Calvin
